Why are Discovery Toys products the best learning toys that money can buy? What makes them so special?

1. Discovery Toys products develop CREATIVE THINKERS.

Our products promote constructive reasoning, imaginary play, and creative thinking simultaneously, wiring the brain for talent in innovation and out-of-the-box thinking!

2. Discovery Toys products are KID-POWERED.

Our products offer hands-on, kinesthetic play that put the child in charge of the learning. By manipulating the toys themselves, they learn to visualize concepts, learn at their own pace, create their own problems to solve, and think about things from different perspectives.

3. Discovery Toys products offer many LAYERS OF LEARNING.

Each of our unique learning toys a) develops multiple developmental skills and learning pathways, b) provides a progressive learning experience and grows with the child, and c) supports multiple learning styles (auditory, visual, kinesthetic).

4. Discovery Toys products encourage PARENT INVOLVEMENT.

By getting on the ground and playing along with their child, parents can guide the learning through play experience.

5. Discovery Toys products are SAFE and HIGH QUALITY.

Our products conform to all US and Canadian regulations. We stand by our quality promise with our corporate Satisfaction Guarantee.

6. Discovery Toys products are super FUN.

We layer in the fun, along with the learning, to keep a child coming back to the same toy, time after time, for more learning and more just pure joy.
